

Technical Data Sheet

U-TRAY

Paver Safety & Decorative Surface Support

COMPONENTS

U-TRAY is composed of:
1 x Piece

CHARACTERISTICS

Width: 496mm
Length 496mm
Thickness: 40mm
Weight: 3.2kg

MATERIAL

Black recycled polypropylene (PP)

CAD files are available for download from our [Resource Centre](#)

APPLICATIONS

The U-TRAY system provides a strong, stable, and continuous support platform for rectified pavers and decorative surfaces, including artificial grass, providing protection in case of paver breakage. Fully compatible with all Buzon pedestals, the system allows for precise height adjustment and efficient installation.

Available with U-TRAY-TABS spacer tabs in 2, 3 and 4mm, ensuring consistent spacing between pavers for a clean and uniform finish. The U-TRAY-LOCK securely connects individual U-TRAY elements, creating an integrated, stable structure with reliable load distribution and allowing quick, tool-free assembly.

SAFETY INSTRUCTIONS

Buzon pedestals and accessories are designed to support external raised floors for pedestrian traffic only and are not designed to support or be subjected to moving and/or vibrating machinery & equipment, including maintenance, cleaning vehicles, automobiles and other similar equipment.
